

Diploma Admission 2026 at MHSSP: Quick Highlights

As MHSSP progresses with the new academic year 2026-27 admission process, the competition and inquiries for technical courses are increasing day by day following the announcement of the 10th result. MHSSP welcomes students who possess the qualities of enhancing their skills and the desire to be a part of the MHSSP alumni

Why choose MHSSP as your Perfect Start for your Engineering Diploma

M.H. Saboo Siddik Polytechnic, managed by the Anjuman-I-Islam group of institutions (established 1874), offers both aided and unaided programs delivered by a qualified and experienced faculty. Admission to MHSSP enables students to bridge the gap between academia and industry through dedicated training and placement cells, while gaining practical, hands-on skills essential for outstanding performance.

Understanding the Centralized Admission Process (CAP)

Candidates seeking admission at MHSSP are required to submit their applications online through the Centralized Admission Process, following the guidelines of the Directorate of Technical Education, Maharashtra. The admission process is purely based on merit and conducted online only.

Eligibility Criteria for the Diploma Enrollment

Post SSC first year diploma admission eligibility criteria require Indian candidates to be SSC passed from a recognized institution/board securing the required percentage. As for the post HSC second year diploma, candidates should have a combination of three subjects, such as PCM, CS, Biology etc. from the approved stream. For further details, students and parents are advised to check admission guidelines on www.dte.maharashtra.gov.in regularly to avoid missing deadlines.

Document Verification and Institute Reporting

Once the candidate registers for the CAP rounds, MHSSP provides a Facilitation Centre for the candidate for smooth access towards the 2026-27 Admission process. The candidate can register and verify their registration at our institute with the help of our expert Admission Team.

MHSSP Provides Influential & Tech Branches

MHSSP presents core branches for students to choose for their 2026-27 diploma in engineering ranging from aided courses like Civil Engineering where industry-based extracurricular activities are engaged to develop skilled and efficient engineers to emerging branches of Artificial Intelligence & Machine Learning where students start the dynamic learning of innovation and excellence.

Take the First Step to Select the Best Polytechnic of Maharashtra: MHSSP
